## Air Quality Advisory Issued For Smoke From New Year's Eve Through New Year's Day Due to Fireworks

A Clark County Department of Air Quality (DAQ) advisory is in effect tonight through New Year's Day, Wednesday, Jan. 1, for smoke due to local fireworks. Air Quality officials say smoke is made of small dust/combustion particles and other pollutants that can aggravate respiratory diseases.

At this time, unhealthy levels of air pollution are not occurring. Air Quality officials will continue to monitor conditions and will post an alert on the forecast page of the DAQ website if unhealthy levels actually occur. A link to the forecast page is located at <http://redrock.clarkcountynv.gov/forecast/>.

### ADDITIONAL INFORMATION:

Airborne smoke/dust is a form of inhalable air pollution called particulate matter, or PM, which aggravates respiratory diseases such as bronchitis and asthma. It may be best for children, the elderly, and people with respiratory diseases to stay indoors. Other suggestions include.

- If you work outdoors, consider wearing a painter's mask or surgical mask. This will help reduce your exposure to dust and particulates.
- Limit outdoor exertion. Exercise, for example, makes you breathe heavier and increases the amount of particulates you are likely to inhale.
- Keep windows closed. Run your air conditioner inside your house and car. Your air conditioner filters out dust and particulates.
- Consider changing your indoor air filters if they are dirty.
- Use your prescription allergy medication or over-the-counter hay fever or sinus medications if you experience symptoms of itchy eyes, a runny nose, or congestion.

Detailed air quality conditions are posted in the monitoring section of the DAQ website. You can receive free air quality forecasts and advisories via e-mail or text message through Enviroflash service. Subscription information is available at [www.enviroflash.org](http://www.enviroflash.org).

###

Clark County is a dynamic and innovative organization dedicated to providing top-quality service with integrity, respect and accountability. With jurisdiction over the world-famous Las Vegas Strip and covering an area the size of New Jersey, Clark County is the nation's 12<sup>th</sup>-largest county and provides extensive regional services to more than 2 million citizens and 43 million visitors a year. Included are the nation's 8<sup>th</sup>-busiest airport, air quality compliance, social services and the state's largest public hospital, University Medical Center. The County also provides municipal services that are traditionally provided by cities to almost 900,000 residents in the unincorporated area. Those include fire protection, roads and other public works,
